

**Thursday 16th April**

**CHIESA DELLA MINUTA- SCALA**

**PRE-CONGRESS – SESSION ONLY FOR THE SPEAKERS OF THE FIFTH ICOS**

**TITLE: THE CONFSSIONAL**

**14:00 – 2nd Mediterranean Oculofacial Meeting**

**SCIENTIFIC PROGRAM**

**V\* ICOS: RETURN TO THE ROOTS**

**17th-18th APRIL 2026**

**CONGRESS**

**Friday 17th April**

07:30 Registration form

08:30 I SESSION: ORBIT

Chairman: B. Esmaeli

**I SESSION: ORBIT**

**MODERATORS (Italian esteemed speaker )**

08:30-08:40 A.G. Lee: Neurophthalmotopics of Orbit.

08:40-08:52 S. Serpa: Orbital Ultrasound, Multimodal Ultrasound: Doppler, UBM, High resolution

08:52-09:04 P. Akaishi: Topical contrast-enhanced CT Evaluation of the lacrimal system in health and disease.

09:04-09:16 E. Rubin: Orbital endoscopic: state of the art

09:16-09:28 G. Castela: Management strategies for orbital lymphatic-venous malformations.

09:28-09:40 L. Mawn: Update on the management of orbital infections, including necrotizing fasciitis.

09:40-10:10 Discussion

10:30 Greetings from the authorities - Opening congress. L. Colangelo

10:45 FRANCESCO COLANGELO and DANIEL WEIL AWARD LECTURE

10:45 L. Crovetto presents Francesco Colangelo

10:50 Ana Rosa Pimentel presents Daniel Weil

11:00 L. Colangelo presents A.R. Pimentel

11:05-11:20 MAGISTER LECTURE: Ana Rosa Pimentel

11:20-11:30 Awards ceremony

**11:30 II SESSION: FUNCTIONAL EYELIDS**

**Chairman: J Corona**

**Moderators: (Italian esteemed speaker )**

11:30-11:40 A. G. Lee: Neurophthalmotopics of Ptosis.  
11:40-11:52 S. Artioli Schellini: Ptosis repair using open mullerectomy  
11:52-12:04 J.P. Aldecoa: Anterior vs posterior ptosis approach: pros and cons.  
12:04-12:16 I. Cardoso Pereira: Frontalis transfer.  
12:16-12:28 R. Medel Jimenez: BPES surgery: the state of the art.  
12:28-12:40 A. Duarte: The eyelid doesn't lie: Challenging cases of eyelid retraction.  
12:40-13:10 Discussion

BREAK FOR LUNCH

### **III SESSION: Oculoplasty in war zones**

**Chairman: J. Merritt**

**Moderators: (Italian esteemed speaker )**

15:00-15:10 A. G. Lee: Neurophthalmotopics of Traumatic Optic Neuropathy.  
15:10-15:22 S. DeMartelaere: Conversations - a Reflection on Lessons Learned from Operation Iraqi Freedom  
15:22-15:34 S.Seiff: Our experience in the Ukraine war zone.  
15:34-15:46 O.Denisyuk: Blackouts to breakthroughs: the Ukrainian experience in oculoplastic surgery.  
15:46-15:58 O. Petrenko: Specifics of treatment of patients with mine-explosive trauma in Ukraine.  
15:58-16:10 H. Tawfik: My experience with trauma patients in Gaza.  
16:10-16:22 B. Esmaeli: Report St. John Hospital: Hope for future rebuilding for our eye hospital in Gaza and our mobile units in the west bank.  
16:22-16:34 C. Burkat: Less is more in orbitofacial bone reconstruction (simple rather than PSI).  
16:34-16:46 J. Corona: Healing faces, restoring hope: patient-specific implants in Ukraine's war.

### **IV SESSION: AESTHETICS**

**Chairman: S. Artioli Schellini**

**Moderators: (Italian esteemed speaker )**

16:50-17:00 A. G. Lee: Neurophthalmotopics of aesthetic procedures.  
17:00-17:12 J. Bareno: Beyond the eyelid: integrating endoscopic malar lift into oculofacial rejuvenation.  
17:12-17:24 D. Paez: Midface lifting: a three-dimensional understanding of midfacial third.  
17:24-17:36 S. Matayoshi: Asian eyes blepharoplasty.  
17:36-17:48 N. Kassis: Upper and lower Blepharoplasty: restructuring, fat repositioning, and modern support techniques.  
17:48-18:00 C. Rodriguez: Brow Lifting 2.0: Beyond Traditional Blepharoplasty.  
18:00-18:12 J.R. Biostimulators: Friend or Foe in Facial Aesthetics?  
18:15-18:45 Discussion  
19:00 End of the first day

**PRELIMINARY PROGRAM**  
**V\* ICOS: RETURN TO THE ORIGINS**  
**17th-18th APRIL 2026**  
**CONGRESS**

**Saturday, April 18th**

**V SESSION: ONCOLOGY AND ORBITAL SURGERY**

**Chairman: R.C. Kersten**

**Moderators: (Italian esteemed speaker )**

08:30-08:42 AA. Velasco y Cruz: The role of the oculoplastic surgeon in managing III nerve palsy

08:42-08:54 G. Graue: Orbital decompression: anatomy in cadaveric model.

08:54-09:06 I. Mombaerts: Dial M for Myositis

09:06-09:18 B. Esmaeli: Survival update for Adenoid cystic carcinoma of lacrimal gland.

09:18-09:30 P. Udhay: Complex orbitocranial penetrating injury-managed through neuroplastic surgery - a rare case report and review of literature.

09:30-09:42 J. Bilyk: Reconstruction after trauma and tumor excision: ethical issues in some of free flap cases.

09:45-10:15 Discussion

**VI SESSION: TED**

**Chairman: L. Baldeschi**

**Moderators: (Italian esteemed speaker )**

10:45-10:57 T. Sullivan:

10:57-11:09 G. Sudar: Update on Corticosteroids and Mycophenolate in early TED.

11:09-11:21 M. Kazim:

11:21-11:33 A. Grover:

11:33-11:45 A. Kossler:

11:45-12:15 Discussion

**BREAK FOR LUNCH**

**VII SESSION: FUNCTIONAL EYELIDS**

**Chairman: R. Medel Jimenez**

**Moderators: (Italian esteemed speaker )**

14:00-14:12 J.L. Tovilla Canales: Management of the prolapsed lacrimal gland.

14:12-14:24 R. Balcells: Lacrimal sac tumors.

14:24-14:36 R. Afifi: Punctal Stenosis

14:36-14:48 F. Melgen: Entropion and ptosis of upper eyelid eyelashes. supratarsal fixation and tarsal strip.

14:48-15:00 C. Hidalgo Landeros: Palpebral reconstruction.

15:00-15:30 Discussion

## VIII SESSION: AESTHETICS

**Chairman: I. Cardoso**

**Moderators: (Italian esteemed speaker )**

16:00-16:12 M. Tazartes: Indications, tips & tricks for periocular lipostructure.

16:12-16:24 X. Arze: Botulinum toxin and exosomes

16:24-16:36 ML. Vasquez: Polynucleotides in the periocular area

16:36-16:48 J.Brabo: Regenerative medicine in Oculoplastic surgery: from reconstruction to cellular renewal.

16:48-17:00 A. Borba: The evolution of Oculoplasty: rescuing classical principles and integrating new technologies.

17:00-17:12 Y. Muinoz: Ultherapy

17:12-17:24 G. Matach: Laser in Oculolastic. Options for treating the upper third of the face.

17:25-18:00 Discussion

18:00-18:30 End of the event

We look forward to seeing you at the next one

## RATIONAL RAVELLO 2026

The fifth edition of the International Course of Orbitoplastic Surgery on the Amalfi Coast has as its central theme "The return to the origins" with the aim of bringing the attention of clinical practice to the fundamental principles of medicine also in orbitopalpebral pathologies by providing the necessary training for a correct approach based on ethics, the centrality of the patient. The physiopathology, pre-, intra- and post-operative management will also be explored in depth. The aim is to offer the participant a complete picture of the management and innovative therapies relating to eyelid pathologies, ocular surface, orbit, secondary glaucoma, lacrimal gland pathologies, neuroretinopathies and thyroid-dependent ocular pathologies.

RESPONSABILE SCIENTIFICO DR. LUIGI COLANGELO

## L'EVENTO NON SARA' ACCREDITATO AI FINI ECM

DESTINATARI N. 400 PARTECIPANTI
